Password and MFA Policy

Version 3.0 | May 2025

Passwords

- Passwords must be at least 14 characters long.
- There is no periodic password change. Change your password only if you suspect it was exposed.
- Use the company-provided password manager. Never share your password, including with IT staff.

Multi-Factor Authentication (MFA)

MFA is mandatory for all company systems. Use an authenticator app only; SMS codes are not allowed.

Account Lockout and Reset

After 5 failed login attempts, the account is locked for 15 minutes.

Reset your password in TovanaNet. If you can't log in, call the IT helpdesk at extension 5555.
